

# Division 10 T-TRAK Project

Board Approval to Proceed

# What is T-TRAK

- N scale, tabletop, double track, modular layout
- Portable
- Division 10 will “own” the four corners and two straight sections making an oval and the power equipment
- Will provide the basic elements for a traveling layout

# What will it be used for

- Initial use will be to support the Boy Scout Program
- Other use is for our own Division “publicity” to use as a modular display at local library programs, school programs, Children’s hospital programs, MCR conventions and Local Train Shows.

# How can you participate?

- You can build your own single, double or triple modules following our design standards, building a diorama quality module to demonstrate the model building skills of the Division
- You can bring your module to the events and participate in the educational program.

# How can I get more Info?

- Mark Underwood is presenting a clinic at next months Sunday meeting
- He will provide more details on the modular aspect of the concept
- We will have the six modules built and assemble into an oval layout for him to use as a teaching tool.
